

PB PETERS+BEY

EXPERTISE IN
MARITIME SOLUTIONS
SINCE 1881

PETERS + BEY is one of the world's leading manufacturers of navigation lights and monitoring systems.

Founded in 1881 as a provider for ship supplies and producer of sheet metal works, the company can look back on a wealth of experience and numerous innovations. The first internationally approved LED navigation light for ships over 20 m in length is thanks to PETERS + BEY. PETERS + BEY is well set up for the future with its new headquarters and production site, new technologies and innovative ideas. This will allow us to continue to set new standards for maritime lighting technology in the future.

Lighting • Life Saving Equipment • Personal Protective Equipment • Fire Fighting Equipment • Maritime Signage

Founded in 1881, PETERS + BEY is now successfully managed in the fourth generation. Originally active as a marine sheet metal provider supplying the port of Hamburg, PETERS + BEY today offers a comprehensive portfolio of services for shipping.

SUCCESS BACKED BY TRADITION.

PETERS + BEY navigation lights represent **more than 135 years** of quality and innovation.

PETERS + BEY vehicles make daily deliveries to and from the port of **Hamburg**.

Thanks to long-term contacts with many forwarders, PETERS + BEY ships goods worldwide **by sea, air and land**.

Professional maintenance service, including **trained staff, spare parts supply and rental equipment**, is one of the benefits of our new service area.
